Zwilling, Edgar, NCI Monogr. #2, *19*

INDEX OF SUBJECTS

Volume 24

January 1960 • June 1960

Journal of the National Cancer Institute and NCI Monographs

Amino acid oxidases, enzymatic action on amino acids by, 31
Anemia:
in rats with turpentine inflammation, 673
of tumor-bearing animals, distribution of radioiron after extravascular injection of labeled erythrocytes, 87
Announcements:
Abstracts of Soviet Cancer Research, 517
Bibliography of Cancer Produced by Pure Chemical Compounds, 518
Cancer Chemotherapy Abstracts, 1004
Cancer Current Literature Index, 517
Gordon Research Conference, 1003
International Symposium on Drugs Affecting Lipide Metabolism, 517
Manuscripts Approved for JNCI, 253, 518, 757, 1004, 1241, 1463
Scientific Translation Services, 1003
Second International Course of Lyophilization, 1004
Antibody(ies):
heterohemo, in inbred mice with transplanted tumors, 1319
limited fixation of, by viable cells, 255
part of, in immune mechanisms, NCI Monogr. #2, 113
polyoma localization by fluorescent, 581
production of humoral, NCI Monogr. #2, 73
response to polyoma virus in different species, 839
study of Rous agent by fluorescein-labeled, 995
Antigen(s) *see also* Antibody; Immunity studies
Antigen(s)—Continued
antibody reactions involving human cells, 255
polyoma virus, demonstration of intracellular localization of, with fluorescein-labeled antiserums, 581
tissue-specific, from cells of patients with leukemia, NCI Monogr. #2, 57
Antimetabolites *see* 8-Azaguanine
Antiserums:
injection with, in mice with Lymphoma 6C3HED, NCI Monogr. #2, 113
intracellular location of Rous sarcoma virus antigens by fluorescein-labeled, 995
Ascites tumors *see also* Lymphoid tumors
L4946 and C1498, effect of cyclophosphamide on, 759
8-Azaguanine, metabolic responses to, 57
Azo dyes, in carcinogenesis, by several derivatives of *p*-phenylazoaniline, 149

Bladder, tumors induced by AAF and tryptophan, 181
Blood:
erythrocytes, labeled, distribution of radioiron, after extravascular injection of, 87
plasma, glucose and lactate concentrations in, of chickens with myeloblastosis and erythroblastosis, 387
Body type, relationship to occurrence of cancer of breast, cervix, and corpus uteri, 483
Bone marrow, response of, treated with virus of avian myeloblastosis in tissue culture, 395

Cancer *see also* Names and types of tumors
epidemiology of, urban and rural incidence in New York State, 1243
heredity in human gastrointestional, 551
host factors in cancer of breast, cervix, and corpus uteri, 483
prospects for systemic therapy of, NCI Monogr. #2, 179
in South African Bantu, 589
statistics on men disqualified for military service, 755
studies with toxohormone in tumor-bearing animals, 77
uterine, survival of patients with, 541
viral etiology of, NCI Monogr. #2, 141
Carcinogenesis *see also* Names and types of tumors
chemical carcinogens, related to, *N*-2-fluorenylacetamide, 149
iron-dextran complex (Imferon) in rat and mouse, 109
p-phenylazoaniline, 149
N, *N*-dimethyl-*p*-phenylazoaniline (4-dimethylaminoazobenzene), alteration in DNA of liver cells of rats, 1283
Fast Green- and Light Green-induced tumors, induction, morphology, and effect on host, 769
induction of transplantable malignant tumors in mice by preparations containing RNA extracted from human and mouse tumors, 301
promotion of tumors of skin and urethral orifice in mice by citrus oils, 1389
viral, in hamster kidney, 1113
Carcinogens *see* Colchicine; *N*, *N*-Dimethyl-*p*-phenylazoaniline; *N*-2-Fluorenylacetamide; Hydrocarbons; Mammary-tumor agent; Urethan
Cell(s):
in detection, isolation, and characterization of specific antigens, in tissue culture, NCI Monogr. #2, 57
effect of serum on growth of, 859
mechanism of control in normal and neoplastic, 953
uterovaginal smears examined by Cytoanalyzer, 1167
Cervix, cancer of, detection by Cytoanalyzer, 1167
Chemotherapy:
cyclophosphamide, effects on mouse leukemias, 759
Chemotherapy—Continued
9α-fluorohydrocortisone and related steroids in mouse lymphosarcoma, 1353
studies of immunity in mice surviving systemic leukemia L1210, 283
systemic, of cancer, NCI Monogr. #2, 179
Chimeras *see* Radiation
Chromosomes *see also* Genes; Genetics
changes in,
during development of embryo, NCI Monogr. #2, 3
number after colchicine treatment, 1067
Robertsonian type, in mouse ascites lymphoma, 1187
Citrus oil(s), tumor promotion by, in mice, 1389
Coffee, roasted, occurrence of polycyclic aromatic hydrocarbons in, 463
Colchicine, changes in chromosome number after treatment with, in TC cells, 1067
Coturnix see Quail
Cyclophosphamide, effect on mouse leukemia, 759
Cytoanalyzer, field trial of, 1167

Demography of cancer, incidence in urban and rural areas of New York State, 1243
2-Deoxy-D-galactose, effect of, on tumors, 267
2-Deoxy-D-glucose, effect of, on tumors, 267
Deoxyribouncleic acid:
alterations of, during formation of hepatomas in rats, 1283
in normal and leukemic tissues, 1309
Diagnosis of multiple myeloma, duration of symptoms prior to, 1259
Diethylstilbestrol, biochemical changes in golden hamster during tumorigenesis by, 1057
Diet:
effect of, on mitochondria in liver and hepatoma, 795
nutritionally complete, with ethyl linoleate as source of essential fatty acid, 211
tumor tissue as constituent of, 197
Differentiation, some aspects of, in chick embryos, NCI Monogr. #2, 19

Ehrlich ascites tumor cells, oxidation of fatty acids in, 1
Electron microscopy:
epidermis, mouse, alterations in, caused by Span 60- and Tween 60-type agents, 329
mitochondrial changes measured in, 795
of myeloblasts from tissue culture, 971
of rabbit papilloma virus, 873
ultrastructure,
of interfollicular epidermis of normal adult mouse, 329
of myeloblastosis virus, avian, 395
Embryo, disaggregation and reaggregation of early chick, NCI Monogr. #2, 19
Enzymes:
action on amino acids by oxidases, 31
alkaline phosphatase, histochemical demonstration of, 1199
catalysis by, in conversion of uracil and thymine to ribosides or deoxyribosides, 13
importance of, in cellular metabolism, NCI Monogr. #2, 3
Epidemiology:
cancer incidence in the South African Bantu, 589
host factors in cancer of breast, cervix, and corpus uteri, 483
relation of nursing and menopausal history to breast cancer, 733
survival of patients with uterine cancer, 531
Erythroblastosis *see* Virus
Estrogen, testicular tumors induced by, 1219

Fibrosarcomas, induced by triphenylmethane dye, 769
N-2-Fluorenylacetamide:
and other derivatives of fluorene, effect of, on mitotic activity of protozoa, 1299
and related compounds, carcinogenic action of, 149
9α-Fluorohydrocortisone:
development of resistance to, in lymphosarcoma of mouse, 1341
response of lymphosarcoma to, and related steroids, in mice, 1353

Gastrointestinal tract, heredity in cancer of, 551
Gene(s) *see also* Chromosomes; Genetics
coisogenic resistant lines of mice and their hybrids, skin and tumor grafting in, 707
Gene(s)—Continued
differential, cell-specific and time-specific functions of, NCI Monogr. #2, 3
Genetics *see also* Chromosomes; Genes
aneuploidy in malignant cells, 471
chromosomal features of mouse ascites lymphoma, 1187
DNA content of cells in mitosis, 471
heredity in cancer of stomach and large intestine in man, 551
mammalian, spontaneous tumors in inbred line of Wistar rats, 1031
segregation on transmission of mammary-tumor agent in mice, delayed effect of, 721
Germfree raising of Japanese quail, 1405
Glucose:
analogues of, effect on survival time of mice bearing L1210 leukemia, 267
concentration of, in chickens with erythroblastosis and myeloblastosis, 387
β-Glucuronidase, bladder tumors and, 181
Glutamine, metabolism of, by tissue explants, 573
Glutamine synthetase in tissue explants, 573
Glycolysis of susceptible and resistant L1210 leukemia cells to 8-azaguanine, 57
Golgi apparatus of human melanoma cells, electron microscopy of, 437
Grafts *see also* Transplantation
chorio-allantoic or body-wall, of definitive primitive streak stage embryos, NCI Monogr. #2, 19
effect of strain-specific mating on tumor transplants, 699
of hyperplastic alveolar breast nodules of mice, effect of hormones on, 883
immune mechanisms in rejection of, NCI Monogr. #2, 113
rat and mouse lung, acceptance of, by radiation chimeras, 1367
skin and tumor, in coisogenic resistant lines of mice and their hybrids, 707
Growth:
regulation of, in mammary glands of C3H mouse, 953
response of animals fed chemically defined diet containing varying amounts of essential fatty acid, 211
of testicular tumors, 1219
Growth hormone, effect of, on seromucoid, 1181

Hamster, golden, biological data on, 1057
Hepatoma(s):
in adult C3H mice, inability of *p*-hydroxypropiophenone to inhibit, 685
alterations during formation of, in rats, 1283
spontaneous and urethan-induced, incidence in C3H, C3Hf, and C3He mice, 425
Histochemistry, alkaline phosphatase, postcoupling, noncoupling, and fluorescence techniques, 1199
Homografts *see* Grafts
Hormones:
effect of, on growth and carcinogenesis of transplanted hyperplastic alveolar nodules of breast, 883
induction of tumors by, NCI Monogr. #2, 149
lactogenic, response and tumor susceptibility, 907
Hydrocarbons (carcinogenic), in roasted coffee, 463
p-Hydroxypropiophenone, inability to inhibit spontaneous hepatomas in adult C3H mice, 685

Immunity studies:
alterations of developing immune mechanisms, NCI Monogr. #2, 73
effect of,
heterophile hemagglutinin content of serum on growth of cells in tissue culture, 1021
strain-specific matings on tumor transplants, 699
effectiveness of immune cells on tumor growth, NCI Monogr. #2, 113
hemagglutination as means of determining species specificity, 1007
heterohemoantibodies in inbred mice with transplanted tumors, 1319
human cells grown in tissue culture for use in, NCI Monogr. #2, 57
in mice surviving systemic leukemia L1210, 283
Iron:
dextran complex, carcinogenicity of, in rat and mouse, 109
distribution of, after extravascular injection of labeled erythrocytes in rats, 87
metabolism of, in rats with turpentine inflammation, 673

α-Keto acids, in used tissue-culture mediums, 417
Kidney tumor(s):
estrogen-induced, biochemical changes during tumorigenesis, 1057
hamster, viral carcinogenesis in, 1113

Lactate concentration in plasma of chickens with myeloblastosis and erythroblastosis, 387
Leukemia *see also* Chemotherapy; Lymphoid tumors
avian, plasma glucose and lactate concentrations in, 387
deoxyribonucleic acids in, 1309
L1210 cells, *in vivo* and *in vitro* metabolic effects of 8-azaguanine on, 57
mouse,
biological studies on virus extract, 933
transplantable (L1210), studies of immunity in mice surviving, 283
myeloid, effect of cyclophosphamide on, 759
Light microscopy, compared with electron micrographs of myeloblasts in virus-induced avian myeloblastosis, 971
Liver catalase, depression in turpentine inflammation, 673
Liver tumor(s) *see also* Hepatoma
spontaneous, inability of *p*-hydroxypropiophenone to inhibit, 685
Lymph nodes, pseudocystic condition of, in C57BL mice, 821
Lymphoid tissue, pseudocystic condition of lymph nodes in C57BL mice, 821
Lymphoid tumor(s) *see also* Ascites tumors; Leukemia
resistance developed to 9α-fluorohydrocortisone, 1341
response of mouse lymphosarcoma to 9α-fluorohydrocortisone and related steroids, 1353
Lymphomatosis (avian) *see* Virus

Mammary gland:
phosphorylase and amylo-1,6-glucosidase activity in, 691
regulation of growth in, in C3H mouse, 953
response of various mouse strains to lactogenic hormone, 907
Mammary tumor(s):
incidence and occurrence of, in CBA fostered mice and CBA hybrids, 679

Mammary tumor(s)—Continued
induction of,
by virus derived from C3H mouse, 1095
by X irradiation and methylcholanthrene, NCI Monogr. #2, 149
nursing and menopausal history, relation to, in human, 733
studies of a virus recovered from C3H mouse, relationship to polyoma virus, 1131
in transplanted hyperplastic alveolar breast nodules, effect of hormones on, 883
Mammary-tumor agent:
delayed effect of genetic segregation on transmission of, in mice, 721
lack of effect of agent on tumor transplants, 699
mammary-tumor incidence, relation to, in fostered CBA mice and hybrids, 679
Melanin, elec..on microscopy of, in human melanoma, 437
Melanoma, human, electron microscopy of, 437
Menopausal history, breast cancer in humans, relation to, 733
Metabolism:
effects of 8-azaguanine on L1210 (sensitive) cells *in vitro*, 57
mechanisms of teratogenic agents during morphogenesis, NCI Monogr. #2, 41
of neoplastic tissue for utilization of fatty acids as respiratory substrate, 1
Mitochondria, measurements of, in liver and hepatoma, 795
Mitosis:
abnormalities during formation of hepatomas in rats, 1283
effect of cyclophosphamide on, of leukemic cells, 759
Morphogenesis, metabolic mechanisms of teratogenic agents during, NCI Monogr. #2, 41
Mucoprotein, effect of growth hormone on level of, 1181
Myeloblastosis (avian) *see* Virus
Myeloma, multiple, duration of survival of patients with, 1259

Neoplasia:
dependent, as reaction to injury, 221
pathogenicity of viral strain RPL12 causing avian, 1423
Neoplasia—Continued
progression from dependence to autonomy of, NCI Monogr. #2, 149
Nursing, breast cancer in humans, relation to, 733
Nutrition:
quantitative studies on male Sprague-Dawley rats fed chemically defined diet, 211
tumor tissue as source of nitrogen, effect on food intake and weight gain, 197

Obituary:
Greenstein, Jesse Philip, Jan., VII
Turner, Floyd C., May, 1239
Ovary, survival of patients with cancer of, 519
Oxygen, effects of, on different sized tumors in mice treated with local X irradiation, 1283

Papilloma(s) *see also* Virus
ultrastructure of rabbit, 873
Phosphorylase, histochemical demonstration of, in mammary gland, 691
Pituitary gland:
excision of, effect on seromucoid level, 1181
lactogenic hormone, response of mouse mammary gland to, 907
spontaneous tumors in, 1031
Plasma *see* Blood
Plasma-cell neoplasm, serum and urinary electrophoretic patterns in C3H/He or BALB/c mice, 1153
Polycyclic compounds, occurrence of, in roasted coffee, 463
Proteins, urinary, patterns throughout transplantation history, 1153
Protozoa, effect of fluorine derivatives on mitosis of, 1299

Quail, Japanese (*Coturnix coturnix japonica*), germfree raising of, and use in cancer research, 1405

Radiation chimeras, acceptance of rat and mouse lung grafts by, 1367
Review, nature of neoplastic reaction in light of recent advances in cancer research, 221
Ribonucleic acid, induction of transplantable malignant tumors in mice with preparations containing, extracted from human and mouse tumors, 301
Rous sarcoma *see* Virus

Sarcoma(s) *see also* Ascites tumors; Lymphoid tumors; Virus; Walker carcinosarcoma 256
—37, leukemia virus extracted from, 933
produced in rats and mice by iron-dextran complex, 109
Serum:
horse, as supplement to medium for cell-suspension cultures, 859
patterns, in growth of transplanted tumors, 1153
Skin:
mouse, epidermis, ultrastructure, alterations in, caused by Span 60- and Tween 60-type agents, 355
in normal adult, 329
Skin tumors, promotion of, in mice by citrus oils, 1389
Statistics,
cancer,
on men disqualified for military service because of, 755
multiple myeloma, duration of survival with, Brooklyn, 1943–52, 1259
urban and rural incidence of, New York State, 1243
Steroids, synthesis of, by mouse adrenal tumors, 97
Surgery *see* Therapy
Sweat gland, apocrine, phosphorylase and amylo-1,6-glucosidase in, 691

Techniques:
biochemical, paper, chromatography analyses of characteristics of compounds produced by mouse adrenal tumors and normal adrenals by, 97
fluorescent antibody, use of, in study of human cells, 255
histochemical,
alkaline phosphatase, postcoupling, noncoupling, and fluorescence, 1199
microspectrophotometry of Feulgen-stained nuclei, 471
manometric, further development of, 51
Testicular tumors, growth of estrogen-induced interstitial-cell, in BALB/c mice, 1219
Therapy *see also* Chemotherapy
by irradiation, in ovarian cancer, survival of patients, comparison with surgery, 519
Theory of cancer, in relation to autonomous neoplasia, 221
Thymine, metabolism of, in liver and hepatoma, 13
Tissue culture:
chromosome changes after colchicine treatment, 1067
cultivation of mammalian cells in, effect of heterophile hemagglutinin, 1021
effect of serum on cells, proliferation in fluid-suspension cultures, 859
glutamine metabolism in, 573
α-keto acids in, 417
normal chicken bone marrow in, treated with virus of avian myeloblastosis, 395
species specificity of mammalian cells in, 1007
Toxohormone, systemic effects of, on tumor-bearing hosts, 77
Tracer studies, palmitic acid-1-C^{14}-labeled, oxidation of, by Ehrlich ascites tumor cells, 1
Transaminase activity of cultured cells, 417
Transplantable tumors, induction of, with preparations containing RNA extracted from human and mouse tumors, 301
Transplantation *see also* Grafts
effect of whole blood inoculation on tolerance to tumor transplants, 699
heterohemoantibodies in inbred mice, 1319
heterologous transfer of papilloma tissue, NCI Monogr. #2, 141
immunity, the ontogeny of, NCI Monogr. #2, 73
plasma-cell neoplasms established in inbred mice, 1153
Tryptophan, metabolites of, in urine, 181
Tumor(s) *see also* Names of
growth of, in immunized mice, NCI Monogr. #2, 113
heterologous transfer of human, NCI Monogr. #2, 141
induction of, by various agents, NCI Monogr. #2, 149
promotion of, in skin and urethral orifice of mice by citrus oils, 1389
resistance, development in mouse lymphosarcoma to 9α-fluorohydrocortisone, 1341
spontaneous, in inbred line of Wistar rats, 1031

Urethan, increase of hepatomas in C3H mice with, 425
Uracil, metabolism of, in liver and hepatoma, 13

Virus *see also* Mammary-tumor agent
of avian erythroblastosis, glucose and lactate concentrations in plasma, 387
of avian lymphomatosis, pathogenicity of strain RPL12, host age and route of inoculation, 1423
of avian myeloblastosis,
glucose and lactate concentrations in plasma, 387
loci of synthesis and adenosinetriphosphatase activity, 971
neoplastic response of normal chicken bone marrow treated with, in tissue culture, 395
induction of tumors in Syrian hamsters by cytopathogenic, derived from C3H mouse mammary tumors, 1095
isolated from avian lymphomas, unrelated to lymphomatosis, 1443
polyoma,
antibody response in different species, 839
Virus—Continued
polyoma
intracellular localization of antigen by fluorescein-labeled antiserums, 581
relationship to, of virus recovered from C3H mouse mammary tumor, 1131
Rous sarcoma,
intracellular location of, by fluorescein-labeled antiserums, 995
and Shope papilloma, transplantability of, NCI Monogr. #2, 141
Sarcoma 37, leukemia extracted from, in mouse, 933
ultrastructure of rabbit papilloma, 873
viral carcinogenesis in hamster kidney, histopathological sequence in, 1113

Walker carcinosarcoma 256, effect of dietary sodium on rats bearing, 197

X-ray (roentgen) irradiation, "oxygen effect" and tumor size as related to response of C3H/Ba adenocarcinoma to local, 1271
